Green Motor Technology Co., Ltd.

Model		G2-Utility-ambulance
Picture		 
Specification	Seating capacity	2seater + stretcher
	Total Vehicle Loading capacity	400kg
	Top speed	20km/h
	Gradeability	20%
	Charging time	6 hours
	Range under speed 22km/h	80KM
	Overall dimensions(L*W*H)	2300*1120*1830mm
	wheel tread	Front wheel: 860mm / Rear wheel: 970mm
	Min.ground clearance	110mm
	Curb weight	500kg
Motor	Motor type	DC 48v
	Kw Rated Power	3.8KW
	Rated Voltage	48V
Battery	Battery	Maintenance-free lead acid battery
	Battery quantity	6pcs
	Battery capacity	8V 150Ah
Charger	Charger type	China origin,input 220V-240V 50Hz,output 48V/25A
	Charging voltage	110V/220V/230V to suit your country standard
Controller	Type	AC controller
	Current	350A

Axle	Size	980mm
	Spec	Italy technology, light, durable, aluminum differential, 16:1 ratio, mechanical brake drum
Steering	Steering system	Dual automotive-style strut and self-adjust rack-and pinion steering
Mechanical Features	Chassis	Aluminum main frame
	Accelerator & Brake pedal	Electric accelerator, accelerator and brake is one pedal kit, like Club Car (USA)
	Suspension system	Helical shock absorber + leaf spring
	Wheel & Tyre	8 inch steel wheel with & Carlise tyre 18x8.5-8 (USA brand), with rim decoration cover
	Driving type	Rear-wheel-drive
	Body	injection plastic, top quality, durable
	Windshiled	folded or one piece type
	Steering wheel	standard golf car steering wheel like above left picture
	Dashboard accessories	key switch, Forward&Reverse gear switch. cup holders, battery indicator
	Lights system	front lights, tail lights, turning signals, brake lights, horn, reverse beeper
	Service brake	Rear drum brakes
	Parking brake	Footbrake on brake pedal
Colors		**Customized per Pantone code**
